

## 2010 Wisconsin QSO Party *Official Results*

### GENERAL COMMENTS

At the end of the 2009 WIQP, I was not sure if the record we set in 2009 for the most entries to date was due to WIQP continuing as one of the most popular state QSO parties, OR was it due to the ARRL's having done the "Year of the State QSO Party" event for all of 2009? After finishing the data work this year, I find we did set another new record for the number of entries. However, I am not sure this is enough evidence, as one year does not a trend make. I suspect we should wait till WIQP 2011 is over to give us one more data point, before we draw any conclusion. I do believe that the data I looked at this year will support the idea that interest in WIQP continues. I would hope that this continuing interest is a direct result of how we conduct WIQP each year.

2010 was an interesting year. Four new records - besides the new WIQP record in the number of entries, I found new records in the Single Operator Fixed, the Single Operator Mobile, the Multi Operator Multi Transmitter Fixed categories, and a new record for the WI Club Competition among the 30 clubs that entered the WI Club Competition. Lastly, and the bigger surprise to me, was the Beginner category, which is new this year. The Beginner category had 7 entries, one of which was actually a multi operator entry. WIQP and contesting in general must still be providing interest, which is very encouraging. Thanks to all of you for that.

WIQP 2010 got 304 entries - a 4.5 percent increase over 2009's 291 entries, which itself had showed a 8.6 percent increase over 2008's entries. We again saw an increase in the number of electronic logs submitted. Of the 304 entries received, 253 were electronic. Paper logs numbered 51 this year, about the same as last year. An interesting item related to paper logs - of the 51 submitted, 23 of them were printed, which means they could have been submitted electronically. Perhaps we are not doing our job in making the procedure as easy as it really is for doing electronic submission. We can accept most any printed, text type format. Attaching it to an email OR sending it as a printed page works fine most times. We would like to work with you to get you comfortable with doing electronic entries. Let us know how we can help?

Last year I had some positive comments about the overall number of contacts WIQP generates in seven hours. Last year it was 39,339 total in WI and out. This year total in and out is 46,784 contacts - up 18.9 %. In Wisconsin, for 2010, I found 35,701 contacts, broken down thusly - 15,814 CW and 19,887 phone contacts. Out of the state I found 11,083 contacts - 7,384 CW and 3,699 phone contacts. Band conditions, or more activity, or continuing interest? You bet.

We had 159 WI entries, and 145 out-of-state entries this year, which is a reversal from last year, when we had 139 WI and 151 out-of-state entries. When I looked back at 2005 to present, I found: 2005 had 134 WI and 99 out; 2006 had 145 WI and 95 out; 2007 had 160 WI and 103 out; and 2008 had 156 WI and 112 out. So the actual reversal was last year. I honestly believe that was the result of the ARRL Year of the State QSO Party event in 2009.

We were a bit short of all 72 WI counties being on this year, for the first time in many years. We had 69 WI counties on, although there is a quirk in that number. Actually, I found 69 in all the logs but one. That one log showed one contact with RUSK with an unassigned call sign, according to QRZ.com. However, if it were actually a miscopied call sign, like I believe it was,

## 2010 Wisconsin QSO Party *Official Results*

it would actually be a valid Missouri contact. Besides, one wonders how only ONE Rusk contact was made across 46,784 contacts. Hence, 69 WI counties are going into the official results. In summation, the counties of FLORENCE, IRON and RUSK do not appear anywhere in the logs. All 50 states and 7 Canadian Provinces were in the logs. DX logs were received from Czechoslovakia, Germany, the Netherlands and Russia

We usually have seen around 60 WI counties as a maximum number for the top out-of-state stations. This year, as you will see from the table below, we had a number of stations that exceeded that amount. I include the WI top 20 for comparison.

### TOP TWENTY BY COUNTIES WORKED

| WISCONSIN |        |       |       |       | OUT-OF-STATE |       |       |       |
|-----------|--------|-------|-------|-------|--------------|-------|-------|-------|
|           | CALL   | QSO's | CTY's | ENTRY | CALL         | STATE | QSO's | CTY's |
| 1         | W9EAU  | 1561  | 66    | MMF   | NA0N         | MN    | 204   | 66    |
| 2         | KB9OWD | 548   | 66    | SOF   | N4PN         | GA    | 269   | 63    |
| 3         | K9WM   | 486   | 65    | MOF   | KV8Q         | OH    | 199   | 62    |
| 4         | W9XT   | 522   | 65    | SOF   | N2CU         | NY    | 244   | 62    |
| 5         | KA9FOX | 738   | 56    | SOF   | W0GXQ        | MN    | 174   | 62    |
| 6         | NS9I   | 459   | 56    | SOF   | K3ZO         | MD    | 250   | 60    |
| 7         | W9JA   | 554   | 56    | SOF   | K0TI         | MN    | 267   | 60    |
| 8         | NQ9A   | 402   | 56    | MOF   | N0UR         | MN    | 193   | 59    |
| 9         | W9OP   | 442   | 54    | SOF   | W8TM         | OH    | 200   | 58    |
| 10        | K9BTQ  | 488   | 54    | SOF   | W3HDH        | IL    | 196   | 58    |
| 11        | K9KL   | 513   | 52    | MMF   | WB2ABD       | NY    | 129   | 58    |
| 12        | KO9LR  | 451   | 51    | SOF   | N4IG         | FL    | 157   | 57    |
| 13        | K9IMM  | 560   | 51    | SOF   | K0TK         | MN    | 201   | 57    |
| 14        | K9EN   | 124   | 50    | SOF   | WA1UJU       | MI    | 214   | 57    |
| 15        | N9AW   | 585   | 50    | SOF   | N9AUG        | OH    | 143   | 56    |
| 16        | K9EAM  | 545   | 50    | MMF   | N6MU         | CA    | 120   | 56    |
| 17        | W9NAW  | 313   | 49    | SOF   | NM2L         | GA    | 154   | 56    |
| 18        | W9NA   | 292   | 48    | MMF   | W9OO         | IL    | 128   | 56    |
| 19        | K8ZZV  | 408   | 48    | SOF   | K9UIY        | IL    | 150   | 56    |
| 20        | KC9FFJ | 424   | 47    | SOF   | W9QL         | IL    | 256   | 55    |

Since I was mobile this year, I do not really have a feel for the bands or the activity. Hence, I will rely on the soapbox comments for some insight. I believe they tell the story. The overall best one I found is W9PN's – "the good and the bad this year was that the bands were much improved over last year. Bad for cloud burning and working within the state, good for picking

## 2010 Wisconsin QSO Party *Official Results*

up distant multipliers.....40 and 80 meters went long early .....Dane and Fond du Lac Counties seemed to be the most prolific.”

### **WEATHER**

When I said last year that it was “perhaps the best weather that I can remember for a WIQP event, for many of the years I have been Chairman,” I was wrong. This year was definitely the best one. When I did my usual stop at a few weather web sites around the state, prior to the contest, to see what conditions looked like, all I found was forecasts for temps in the 50’s and part sun to full sun. I will remember this year very well, as #3 son and myself did my first ever mobile operation - AND - we had shirt sleeve weather for the entire 9 county trip we took. Being able to keep the doors of the van open while setting up and operating was great. I am not the only one that enjoyed the weather either. I found other comments that support my feelings, such as - W9HB “the weather was grand for a 395 mile cruise about Wisconsin,” or K8IR op of NG9T “I did not think the weather ... could be better than in 2009, but it was,” or K0PC “a beautiful day for drive through Wisconsin. The thermometer in the car said 60F and I thought RF was getting into it. But no, it was a glorious spring day,” or KF9AF “glad it was not too nice outside,” or K9EAM “possibly due to the unseasonably warm weather.” I think it is best summed up by the comment of W0ZQ “thanks for ordering the 65 degree weather this time.”

### **CONDITIONS**

Soapbox comments indicated that conditions were great too. Comments like – AE1T “lots of activity,” or WA1UJU “thanks for arranging great conditions on 40 this year,” or N2CU “great 40M activity and solid signals on 40 and 80,” or W2UDT “20M was good compared to last year,” or DL3GA “finally 20 was open for a while, rather than closing after one hour,” or KJ8O “had a great time with the short skip 40M band opening,” or KV8Q “sounded like skip was short up in Wisconsin as I heard lots of in-state Qs on 40,” or N9AW “conditions were very good all the way around on HF,” or KA9FOX “thought conditions were great,” or W9HB “what great band conditions. QSO rate 110 per hour,” or K0PC “I thought the bands were in very good shape.”

### **ACTIVITY**

It also appears that activity was high, based on comments such as – W1END “great activity. Lots of non-mobiles,” or K1QO “great participation by the mobiles,” or W2UDT “ thanks to all the mobiles who kept the counties coming,” or VE3CRU “very intense 7 hour contest,” or KV8Q “lots of activity, both mobile and fixed stations all over the place,” or N9AW “thanks to all of the non-WI stations that participated,” or W9ET “this contest is amazing – the level of activity,” or KA9FOX “participation was excellent,” or

KC9POO “who would have thought that Columbia County was so rare to cause pileups,” or K0PC “lots of activity right from the start.” Best summation comment would be by NG9T “I never took my hands off the keyboard for the seven hours.”

To help me gauge activity, I took a brief look at scores for several years. When I looked at the top SOF operators in Wisconsin, same station, over 2 years, I did find an improvement in score totals. To me that is because we had more stations available than in 2009. Then I looked at

## 2010 Wisconsin QSO Party *Official Results*

multipliers. I found them, on average, pretty much the same. Not sure if that is due to more stations at the other end or not, or band conditions, or something else. Next I looked at the out-of-state SOF operators. Overall, their scores were down just a bit, but here the multipliers took a bigger dip than the scores, in my view. This might relate to our not having all 72 counties on this year, for the first time in a long time. Some of the same stations, year over year, did do better, which I attribute to better band conditions.

To further gauge activity, I also compared our entry categories year over year for WI stations. This year, over 2009, we did get a few more in the SOF, SOM and MOF categories, while the SOT, MOM and MMM went down a tad. All of these improvements were better than we saw in 2008. I think I can safely say that is probably due to the increased number of entries we saw this year.

Are we seeing continued interest? Is there more activity by previous participants or is there more activity by new stations coming aboard? With increased entries for the last two years, I decided to look into “new” calls - meaning, how many new calls were present the last 2 years, to see if interest was indeed continuing. I wanted to see if the increases we have seen in the last 4 years were mainly due to more of the “regulars” or if in fact, we were seeing more new call signs each year. In order to do that, I went back and pulled the call sign list from 2007, 2008, 2009, and 2010. I compared each to the previous year. What I found surprised me. In 2009 there were 158 “new” calls that had not been on the list in 2008. This year I found that we had 166 “new” calls that were not on the list in 2009. I went one step further. Of the 166, 39 were repeat calls, having been on in one or more previous years, going back to 2006. I know from doing this data work for so many years now, that a lot of the regular stations do not or cannot participate each year. These 39 were what I would call “regulars.” They operate when they can. That means that 127 calls, of the 166, were totally “new” to WIQP in 2010. I am sure that if I did the same for the 2009 list, I would probably find the same thing. While I am not sure of the significance of that data, it does sort of tell me that each year we are seeing new calls participating. A number of those new calls are recently licensed, which also tells me that contesting is still attracting newcomers. Maybe that is why the Beginner category got seven entries? That encourages me.

### **MOBILE STATIONS**

Over the years, our mobile operator total has been oscillating up and down, peaking at 36 mobile ops in 2004 and 2006. Last year, during the ARRL event, we saw only 22 mobiles take to the WI highways, the worst since 2002 when there were 23 (I only went back to 2001 for the data). This year I am happy to report, we have 25, an increase, however slight. I know that two of our “regular” mobiles did not participate in WIQP this year, and a third mobile op did a multi operator fixed operation this year.

(Just a side note. I think that perhaps Rusk and Iron were missing because one of the “regulars” that last year traveled thru both of them did not participate this year AND Florence was perhaps missing because of a route change by one of the mobiles, who last year visited FLO. Just a thought). Since I did a mobile operation for the first time ever, under the best of conditions, I believe I can now understand why the total oscillates. Besides the bouncing around for 7 hours, I

## 2010 Wisconsin QSO Party *Official Results*

am sure the weather plays a big part. I know this was a banner year for some of the mobile stations. A lot of them achieved personal highs. Of the 25 that entered, 20 of them were Single Operator Mobile, 3 of them were Multi Operator Mobile, and two of them were Multi Operator Multi Transmitter Mobile. The two Single Operator Technicians are included in the 20.

The two tables below are a look at the top ten Single Operator stations by SCORE, both in and out of Wisconsin. With the WI table, I included the entry classes of the Single Operator stations, to give you an idea of the mixture of mobile versus fixed for WI, as I have done in past years:

### TOP TEN WISCONSIN SINGLE OPERATOR BY SCORE

|      |        |      |      |       |      |      |      |        |       |
|------|--------|------|------|-------|------|------|------|--------|-------|
| 1    | 2      | 3    | 4    | 5     | 6    | 7    | 8    | 9      | 10    |
| NG9T | KA9FOX | K0PC | N9NE | W9MSE | W9HB | W0ZQ | W9XT | KB9OWD | K9IMM |
| SOM  | SOF    | SOM  | SOM  | SOM   | SOM  | SOM  | SOF  | SOF    | SOF   |

### TOP TEN NON-WISCONSIN SINGLE OPERATOR BY SCORE

|      |      |      |      |      |      |       |        |      |      |
|------|------|------|------|------|------|-------|--------|------|------|
| 1    | 2    | 3    | 4    | 5    | 6    | 7     | 8      | 9    | 10   |
| W8TM | NA0N | N0UR | N2CU | KV8Q | K0TI | W0GXQ | WA1UJU | K0TK | N4PN |
| OH   | MN   | MN   | NY   | OH   | MN   | MN    | MI     | MN   | GA   |

## RESULTS

The new Beginner category had seven entries, as I noted above. I want to encourage each of the seven to continue on in both WIQP and contesting in general. I want them to also get thanks from the rest of us for participating. There is no overall winner, as each one will receive their own certificate. To highlight, I provide the following list - as a Single Operator entry, from Columbia County we have Brad Schack, KC9POO, from Grant County we have Nathan Manwiller, KC9LVU and Dennis Schaal, KC9OTY, from Juneau County we have Howard Fischer, KC9IVJ, from Milwaukee County we have Charles Dellis, W9WLX and from Waukesha County we have Vincent Mulhollon, N9NFB. As a Multi Operator Fixed entry, from a Vernon County dairy farm, we have the trio of Ralph Hendrickson, KC9LBO, Nicole Hendrickson, KC9NHQ and Kathryn Swenson, KC9OYG. Congratulations to all of you. Hopefully we will continue to see your entry in future years, as well as in the lists of the many contests. Welcome.

The 2010 plaque for highest scoring Single Operator in Wisconsin goes to first time winner, James Callow, K8IR, who operated NG9T, the club call of the Tri-Cities Contest Club, as a WI mobile. Jim lives in Menomonee, Michigan. I think his soapbox comments tell the real story – “I did not think the weather or conditions could be better than 2009, but they were. I never took my hands off the keyboard for the seven hours. Thanks to all who called in. And special thanks to my driver, Eric, KG9GH. Great to have in-state propagation on 40.” So you can get a picture of what doing a mobile entry is all about, I thought this year it would be interesting to trace a mobile route. I used the NG9T mobile 18 county route. James started this year, like last year, in Door County, ran down into Manitowoc County, then proceeded to head across the top of Lake Winnebago, down the west side of the lake to Fond du Lac County, then west to Marquette

## 2010 Wisconsin QSO Party *Official Results*

County, and then began a northerly trek from Waushara County north to Forest County, where he ended. His “in-county” times ranged from 6 minutes to a high of 41 minutes. For those interested, here is the breakdown – DOO 6 mins, KEW 13 mins, BRO 28 mins, MAN 30 mins, CAL 18 mins, OUT 14 mins, WIN 25 mins, FON 14 mins, GRL 22 mins, MRQ 18 mins, WSR 31 mins, POR 41 mins, WAP 20 mins, SHA 37 mins, MEN 27 mins, LAN 12 mins, OCO 17 mins and FOR 10 minutes. Last year when James did his MOM operation, he only did 11 counties, and spent up to an hour in some of them. Obviously, I guess he planned a better setup this year, which put him in the 2010 Wisconsin’s Best Single Operator Winner’s Circle. He did 832 CW contacts, low power. He worked 28 WI counties, 40 states and 2 Canadian Provinces, for 70 total multipliers. His final score total 183,720 points. And that puts him into the record books, beating out NE9U who set his record in 2009 with 172,615 points. He has a website (K8IR.com), that shows the truck they operated from. I know I must have passed him since we were both in the same county at the same time – although I did not work him. Probably when my radio went berserk? Congratulations James on breaking the Standing Record and enjoy your plaque.

The 2010 plaque for the highest scoring Single Operator outside of Wisconsin goes to another first time winner, Paul Kirley, W8TM, from Cincinnati, OH. Paul has been a participant in WIQP since 2004, during which he participated as a QRP entry. He came close in 2007, achieving second place. This year he did one better. He is the third QRP operator to win WIQP since we put the power multiplier in place in 2001 – W3BBO in 2001, N0UR in 2005 and now W8TM in 2010. Another interesting QRP fact – this year our first and third place positions were QRP. I understand that doing QRP is a REAL CHALLENGE, based on the soapbox comment from Tom, W9VBQ – “I did not do as well as I would of liked but being QRP I had to fight for every Q I got. Except when there was a pile up, I had no problem with making Qs. In pile ups, I had to wait until all the other calling stations had made contact before I could. That made for a very long 6 hours.” Tom is not the only one to tell me that either. Five watts can be a challenge, however, Paul took the challenge and beat the pack. Paul did 157 CW, and 43 phone contacts, with 58 WI county multipliers, for a total of 41,412 points. Not a new out-of-state record though. Congratulations Paul. I know you will enjoy your plaque.

Our 2010 plaque for the Wisconsin Club Competition goes to a repeating winner – the Fond du Lac Amateur Radio Club. This is their eighth win. Their 22 operators entering the Club Competition scored a total of 977,185 points. Amazing. Based on their 2009 total score, that is an almost 89 percent increase. Based on their previous standing record set in 2003, that is an almost 37 percent increase. Obviously, they set a new standing record. At almost a million points, I wonder if it will ever be broken? Congratulations to all twenty-two of you. Enjoy your plaque.

The Single Operator Fixed category was won by Scott Neader, KA9FOX, of La Crosse. He made 408 CW Qs and 330 phone Qs with 56 counties, 44 states and 5 Canadian Provinces, for a total score of 180,495 points. Scott did set a new standing record for SOF, surpassing the WE9V record set in 2002. Congratulations Scott.

## 2010 Wisconsin QSO Party *Official Results*

The Single Operator Technician category was won by Brian Long, KB9LRD. This is Brian's 5<sup>th</sup> first place in a row. He always operates as a mobile, in SOT. This year he traveled through 15 counties, making 232 phone Qs, while working 21 counties, and 1 state, for a total score of 14,156. Congratulations to Brian on your five-peat. .

The Multi Operator Fixed category was won by the Hidden Valley ARC's team of N9BIL, NN9K and N9YPN, who in past years had operated as a multi multi mobile entry under the NN9K callsign. They decided to do a fixed portable operation this year. It worked. As K9WM, the Green River Valley ARS of East Moline Illinois call sign, they won, making 310 CW Qs and 176 phone Qs with 65 counties, 41 states and 2 Canadian Provinces, with a total score of 129,452 points. Not a new standing record. NN9K does hold the multi multi mobile standing record they set last year though. Congratulations to Timothy Rogerwall, N9BIL, Peter Beedlow, NN9K and Anthony Padavich, N9YPN.

The Multi Operator Mobile category was won by the WX9EP team, representing the Mississippi Valley ARA. They made 237 phone contacts with 39 WI counties, and 14 states, while traveling thru 13 WI counties. Total score was 25,841.5 points. Congrats to Eric Papenfuss, WX9EP, and Christopher O'Hearn, KC9DGP.

The Multi Operator Multi Transmitter Fixed category was won this year by W9EAU, the club call sign of the Eau Claire ARC, for the third year in a row. Their 13 operators made 579 CW Qs and 982 phone Qs, working 66 counties, 49 states and 7 Canadian Provinces, for a score of 391,620 points, which set a new standing record. They bested the W0AIH previously held 2002 standing record for this category. Congrats to Paul Bittner, W0AIH, Mark Seyffer, KB9S, James Staatz, KI9H, Steven Bluem, KA9OMY, Kirk Dahl, N0KD, Roger Wise, KI0F, Mark Marusik, N9FE, David Voss, KB9WPC, Ronald Anderson, W9RMA, Jonathan Case, KE9KW, Catherine Seyffer, K9KTT, Rolf Nestingen, KG0KM and Nathan Peterson, KC9FEI.

The winner in the Multi Operator Multi Transmitter Mobile category is me, K9KR, a first time mobile operator. Son Jeff and I scored 16,155 points, based on multipliers of 32 counties, 9 states and one Canadian Province, while traveling thru 9 counties, doing 9 CW and 167 phone contacts. Thanks Jeff, KC9NPZ.

### **STANDING RECORDS 2010**

I thought I would include the current standing records with this report. I changed it from previous versions, in that, I removed the two categories we retired way back in 2001. This list represents the current "continuing" standing records. It does not include the Beginner category because of the limits for participation in that category – you can only enter it twice (in succession), which does not fit in with a "continuing" standing record list concept.

## 2010 Wisconsin QSO Party *Official Results*

### **ELECTRONIC LOGS**

As I said above, we again saw an increase in the number of electronic logs submitted. Thanks for that. It sure helps us get easier access to data. And again, a good number of those electronic logs used our suggested N3FJP logging program, like last year. I know that Scott, N3FJP, will not be supporting our WIQP any longer by making changes to his program. I am not sure how that will affect us.

Again I need to also mention this - we do not have a contest robot. We do not acknowledge every entry as we receive it. We do a list of logs received on our club website, which we update as entries are received. Please look for our list of received call signs on our website. If you then do not see your call, contact us. Thanks for understanding.

### **POSSIBLE 2011 CHANGE**

We are considering changing the start time to an hour earlier in 2011, because of the increased activity we are seeing from DX type stations, due to improving band conditions. If you care to comment, please do so

### **COMMENTS NEEDED**

The West Allis club had been having some discussions on CW, specifically on the use of CW DECODERS. With the increasing speed of computers, and much better programming, there is a question as to how machine copy of CW will affect WIQP. We wonder if CW operators who copy code in their head (analog?) will have a problem with a person who cannot copy code, then sending in an entry, and possibly winning a certificate or plaque, i.e. winning over a person who can copy CW without a computer. We would like to see CW participation continue, as that is a big part of WIQP each year, especially by mobile stations. We do not want to discourage participation, but we are wondering if you feel there needs to be a new category, or a separate way of listing those machine copied CW entries - OR if you feel that no changes are needed. We especially need to hear from CW operators. Please be honest.

## 2010 Wisconsin QSO Party *Official Results*

### **BIG THANKS**

With the popularity of WIQP, the West Allis RAC believes that what we have done with WIQP, and continue to do, has been a part of the WIQP success. We are very proud to have been able to sponsor the Wisconsin QSO Party since 1979. 2011 WIQP will be our 32<sup>nd</sup> year of sponsorship.

Lastly I wish to say again, as I have said for many, many years – we ARE thankful for all the participants who sent in logs, or were just there for contacts but did not send in logs. Activity levels we continue to see each year in WIQP, both mobile and fixed, are a direct result of your participation. We could not do it without your help. It goes without saying that unless all of you are out there for all, or part, of the seven hours, there would be no WIQP each year. Thanks again.

See you March 13, 2011, good Lord willing.

Lynn, K9KR  
Chairman WIQP for WARAC

## 2010 Wisconsin QSO Party *Official Results*

### SOAPBOX

FB contest – W1BHC

Great activity. Always something happening. Lots of non-mobiles. Wisconsin's distance is optimum for me in NH; all bands are good. Thanks to everyone for putting on a great party and also to those who showed up. See you next year – W1END

Great QSO party. Great bunch of hams in WI. See you next year – W1KDA

5<sup>th</sup> Wisconsin State QSO party. Had lots of fun – N1NN

Thanks for being there. Hope to work some of the folks in the NEQP – KB1NWH

Thanks for a great QSO party. I'll have to spend more time next year. Great participation by the mobiles. Had to do a little "womaning" the sump pump around in the cellar, after getting over 6 inches of rain here. Great fun to hear folks in WI with familiar calls. WOW, there are a lot of counties in WI – K1QQ

Lots of activity plus lots of good ops equals fun QSO party – AE1T

There was good participation by the mobiles. Sorry I did not have more time – W1TO

WIQP continues to be one of my favorites. Thanks for arranging for the great conditions on 40 this year – WA1UJU

I didn't beat last year's score but it was a blast anyway. Highlight was working K9KR, which I don't believe I ever did before. Great 40M activity and solid signals on 40 and 80 – N2CU

Thanks to all those mobiles. GREAT JOB. Thanks for a bunch of fun – NM2L

Score slightly down from last year. We had some thunder activity which cut into the operation. 20M was good compared to last year. Thanks to the mobiles who kept the counties coming. Keep the short format. C U AGN next year. Another great Wisconsin QSO party – W2UDT

First time in WIQP. Thanks to everyone who could copy me thru local US pileups. 73s – UA3AGW

Was very pleased to finally make a decent number of contacts again. Worked 2 of the last 4 to do in WI. TNX W0ZQ. Will continue participating as long as health permits. Current endorsement at 2350 USA worked – PA3ARM

Very intense 7 hour contest, fun to be in. Tribander failed so ran 40 only. Missed the many mobiles till the end when I picked up NG9T for 2 Qs and 1 multiplier - much appreciated. High noise on 40 made it challenging for weak signals. Look forward to next year. Thanks to the sponsors, and to all who participated and gave me QSOs – VE3CRU

Thanks for a nice QSO party. I got lots of new counties – W3DYA

Finally, 20M was open for a while, rather than closing after one hour. I tried logging a QSO party on N1MM for the first time, and this was clearly a good idea with all the activity. See you next year – DL3GA

Did well with an MP-1 portable antenna from a 2<sup>nd</sup> floor apartment in NY – KB3GQK

Great contest as usual – W3HDH

Even though conditions were poor, I had a good run on your contest. C U AGN next year – N3RJ

## 2010 Wisconsin QSO Party *Official Results*

This is the first year that I have worked your QSO party. Had a great time working it with QRP from here in PA – KA3UOL

Thanks – KJ4AOM

Sometimes it seemed easier for German stations to work WI stations than it was for me – but fun anyway – KI4FW

Ops at the other end worked hard to pull me out. 5 watt SSB into a Hamstick on the back of my Suzuki Samurai surely did not make for a booming signal. My hat is off to them – KE4HUD

Enjoyed being back in the WI QSO party after not participating for 16 years – KM4JA

Thanks for the work running the WI QSO party. I hope to enter again next year – W4JHU

Looking forward to next year's party – KI4LXT

Another good one in the books. Thanks to the mobiles and fixed stations. Lots of activity. Thanks to the sponsors. This WAS fun – N4PN

My time was limited, but had fun anyway. TNX to all – WB5BKL

Picked up 21 counties, positive for me – K5BZH

I could only do a part-time effort this year, but it is always fun to hear all the fine mobiles and home stations up that way – K5OT

Was late getting up and on the air but enjoyed the QSO party – WA5TRX

Great job by mobile stations W9MSE, K0PC, W9HB, NG9T, N9NE, and KE0G, who made for another outstanding WIQP. Many thanks to them and to the sponsors – NO5W

I think my rig interface stopped working during the 'test – K6MEE

Thanks for organizing this event. It was fun – K6RM

Used a 20 foot high 120 foot delta loop – K7RFW

I don't think I heard as many folks on this year. Several regular counties appeared to be missing. Commitments at church usually keep me from getting on earlier. I always enjoy the event. Hope to be back next year – N7VS

I used to work for a Wisconsin based company and spent quite a bit of time in WI. I've always found WI residents to be very friendly and this is also true of the WI ham community – NX8G

It would be helpful if the WI operators spread out a bit. It is always a fun contest. Live in Florida now, but wish I was back in Wisconsin ( my old home QTH was Sheboygan ) – NE8J

Thanks for another fun WIQP – K8NB

Had a great time with the short skip 40 meter band opening. Doesn't get better than this. See you next year – KJ8O

Not enough to win but I sure had a lot of fun. Once again, a super little contest. Lots of activity, both mobile and fixed stations all over the place. Sounded like the skip was short up in WI as I heard lots of in-state Qs on 40. Found 9 people on 20 that heard me. Heard lots of others from WI but there must have been a diode in the

## 2010 Wisconsin QSO Party *Official Results*

ionosphere. Thanks for all the multiple Qs to following mobiles: W9HB ( 14 ); NG9T ( 13); N9NE ( 12 ); K0PC ( 11 ); W9MSE ( 9 ); W0AA ( 9 ); and W0ZQ ( 7 ). Thanks for all of the fun and I'll see you once again next year – KV8Q

Jumped in for a few Qs. It was fun. Next time I'll really try – N8XX

Contest was a blast. Glad it wasn't TOO nice outside – KF9AF

It was a great contest this year. Conditions were very good all the way around on HF. Thanks to all of the non-WI stations that participated, they sure make this contest a lot of fun for all – N9AW

I certainly did not set any records. Actually, I did not do as good as I did last year. The important part was that I was on the air, and it was an enjoyable time – WA9AXQ

Great conditions and great participation. I had a ball – K9BTQ

Thanks for a great QP – WB9CIF

Had lots of fun, even the fast guys slowed down for me – KC9CSQ

Fun contest as always – KC9DOA

Casual operating on my part resulted in fun time – WV9E

Great time as usual. Fairly good propagation. It seemed like participation was down, possibly due to unseasonably warm weather. I suspect spring fever kicked in – K9EAM

Thanks for another great WI QSO party – WX9EP

This contest is amazing - the level of activity. An increase of 45 percent over last year's score. Better antennas really do make some difference. But where was all the CW activity? Most of my contest logs end up being 75% CW and 25%. This year it was pretty close to 50/50 – WB9SBD Op at W9ET

A fun contest running 3 watts into a low EFW antenna. Could/should have worked more states – WA9ETW

Great contest. Great hams in Wisconsin, very polite – K9FE

This is only the 2<sup>nd</sup> time I have participated and sure had fun. Twice as fun as the first time two years ago. Thanks for putting on a great contest – KC9FFJ

Was only able to get on for 2 hours this year. Conditions seemed pretty good. Will try for a full effort next year – N9FH

First full-time contest effort in at least 5 years. Lots of fun. I thought conditions were great, and participation was excellent. Outstanding effort by all the mobiles – KA9FOX

Had fun multi-oping with Russell, KC9RDC. We'll be back next year ! Surprised 15M didn't really pan out – W9FZ

I had a great time once again – N9GQ

I was only home for a short time that day, but was able to work a few contacts over about an hour. I guess it all helps the club total – WB9GZP

## 2010 Wisconsin QSO Party *Official Results*

Wow. What great band conditions. The weather was grand for a 395 mile cruise about Wisconsin. Average speed 59 mph, QSO rate 110 per hour. Counties activated 17. Murphy did not ride along during the contest, but he bit hard at 9 AM when the computer hard drive had permanent disk C: errors that it could not recover from. Fortunately, the back up computer was configured and ready. I am certainly glad that it didn't fail during the contest as I don't want to log on paper and send everything by hand while riding in my stiff suspension little car. At times the road noise, wind noise and power line QRM stymied my efforts to pick a call out of the pileups (probably my old brain had a lot to do with the stymieing also). Thanks to WARAC for their efforts to organize this fun QSO party. And to all those who participate. See you next year – W9HB

As usual the QSO Party was a lot of fun and I am looking forward to next year already – KC9HYC

Great QSO party. Loved the conditions – WZ9I

The party was a blast. Thanks for putting together the WIQP – W9IKU

Thanks again for the fun party and all the work organizing and scoring it – K9IMM

Excellent QSO party this year. Sounds like everyone was really courteous and followed the rules this year – AB9IO

Work schedule just happened to allow coming into WI for Sunday afternoon. Nice activity, but I am getting too old to navigate, drive, operate and log on paper. I hope nobody got dinged for NILs because it is entirely possible I neglected to log a few – N9JF

Thanks all for a great time. A LARGE thank you to those brave souls who chose to operate mobile using CW – AA9KH

I was a mobile station and had fun operating the contest – K9KI

TNX to everyone who put up with my rusty CW – WK9O op at N9KQ

Another great contest. Nice to contact old buddies and friends. It is always difficult to work the mobiles from Florida. I could just hear them but they could not hear me .... normal. I was one short of working half of the counties. Next year – N9KS

First time entry. Hope to be QRV on 80 for the next year's WIQP – N9LB

Thanks to the club for another excellent QSO party. With the Jefferson Swapfest in the morning, and WIQP in the afternoon, it was a really full weekend – K9LGU

Great contest – W9LO

Here is my entry for the year – KO9LR

It was a great year again this year. Most of our group moved to 146.55. Know we all really do have fun in the WIQP – KB9LRD

Excellent party. First time in the WI QSO Party and loved it – KC9LVU

WIQP is a fun contest. You guys do a great job with it. I got on to hand out Qs. I was quite active spotting. With under 100 Qs, I won't be winning anything, but I sure don't want to be DQed either – KM9M

Fun time with the QSO party today. I out did last year's contacts – KC9MDY

## 2010 Wisconsin QSO Party *Official Results*

It was enjoyable but had some issues here and couldn't operate very much. One highlight - - in the midst of much 40M CW QRM, way beneath all the traffic, I worked F5DE – W9MFG

Nice runs on 40 and 20. No one on 15 or 6 meter. 75 SSB was slow. With the mechanics and electronics to CW, I do not understand why there should be a points differential between SSB and CW. Thanks for a fun contest – N9MW

I had a good day but it will take a while to get the log scored and figured out. Have fun ... I sure did – N9NE

I enjoyed my first WI QSO party – N9NFB

This was a very fun contest – KB9OBF

Had lots of fun. Kudos to the fine rovers who put lots of counties on the air. Thanks to the West Allis club for sponsoring this fine contest again this year – K9OSC

I looked at the WIQP website and saw the rover listings. I think that is a very good idea. With the postings, there were 11 total (probably more that did not post). Boy, that should give the people that chase mobiles a lot to do – K9OT

This was my first contest and I had a great time! Peg, KB9LIE and Paul, K9OT, got me interested in DXing. I used the 2010 WIQP as a goal for getting my General Class License. It worked! I passed my General exam on 06 March 2010, and entered WIQP the following weekend – KC9OTY

Conditions keep getting better. Thanks for all the QSOs, a new personal best score for me – KB9OWD

The good and the bad this year was that the bands were much improved over last year. Bad for cloud burning and working within the state, good for picking up distant multipliers. I was called by a dozen or more Europeans while working on a frequency on 20M. 40 and 80 meters went long early making the northern counties difficult to copy from Rock County. Dane and Fond du Lac Counties seemed to be the most prolific on the air. I had many folks comment on providing a new one with Rock County. I never knew I lived in a rare location – W9PN

This was my first contest on my own. Had a great time. Who would have thought that Columbia County was so rare to cause pileups – KC9POO

Fun contest – N9PQJ

Short time to operate. Good fun – N9PUZ

Great time like always – K9QH

Thanks for another fun contest. 40 was best for me, here in northern Illinois, but 80 was also pretty good although there were some periods with high noise levels. Thanks to all the mobiles and some rare counties that I missed last year. Hope to see you again next time – W9QL

What a great time. This QSO party is one of my favorite contests – WW9R

No mobile operation due to work but able to give out Douglas on CW from home – AF9T

I did not think the weather or conditions could be better than 2009, but they were. I never took my hands off the keyboard for the seven hours. Thanks to all who called in. And special thanks to my driver, Eric, KG9GH. Great to have in-state propagation on 40 – K8IR Op of NG9T

## 2010 Wisconsin QSO Party *Official Results*

I was looking for new counties for worked all counties and didn't hear much calling. So I decided to call and spent all my time calling. Was fun to be a temp pileup at times, improving my operating skills and controls I don't normally use on the rig, for QRM, etc. Worked 36 out of 72 counties – WB9TFH

I am not a contester but it was fun for a change of pace – N9TWA

I had a GREAT time. Good participation by all in Wisconsin, especially mobiles. C U AGN in 2011 – K9UIY

Had a great time this year – W9UUM

I did not do as well as I would of liked but being QRP I had to fight for every Q I got. Except when there was a pile up, I had no problem with making Qs. In pile-ups, I had to wait until all the other calling stations had made contact before I could. That made for a very long 6 hours. I look forward to next year's party – W9VBQ

Thanks for the great contest – N9VPV

Last worked WIQP two or three years ago and then only 240 points. Running a K1 at 5 watts into a 15 foot high dipole. Thanks for a fun contest – AA9WP

Fun format. Liked the later start time – W9WS

Great time as always. Good to see 40M productive this year – W9XT

TU again for FB QSOs – KB9YGD

Thanks. Our team was myself K9GBK and NI9Z, portable in Price County – NI9Z

Great time had by all. Thanks for all the effort that goes into this fine event. Many thanks and 73 for sponsoring this fun event – K9ZW

Thanks for another great event. A very long but enjoyable day. We pulled into the Univ. of Wisc. Eau Claire at 7:45 PM. I operated another ten minutes in the parking lot and then dashed to the concert hall to listen to my son play. I tried a new 40 meter antenna setup that had some issues. My score suffered a little because of that. Thanks for all the Qs. Did not get home till midnight – WA0MHJ Op of W0AA

Thanks for a great QSO party – AC0AF

Again it was a fun event ... this being my third and helping out the Fox Cities Amateur Radio Club. Other than Field Day, this is the only other event I take interest in – KK0I

TNX for another GREAT QSO party. C U next year – K0JPL

Not much time spent as it was too nice outside – KE0L

Fun contest. I had a blast ! It was a lot of fun. Wish I'd had more sleep last night. Next year, CW for sure - ND0L

A beautiful day for a drive through Wisconsin. The thermometer in the car said 60F and I thought RF was getting into it. But no, it was a glorious spring day. My trusty driver John, W9DND, and I set out on a 15 county route and kept very close to schedule all day. Lots of activity right from the start. I thought the bands were in very good shape. 40M seemed to open to most of the country for most of the day. Even close in contacts to WI and back home to MN worked on 40. No equipment problems this outing. Of course I fumble fingered the computer a few times – I'm blaming the bumps. Great participation again this year led to a new

## 2010 Wisconsin QSO Party *Official Results*

high for us. Pat, NA0N, swept all 15 counties we operated from and had the high of 20 QSOs in our log. Thanks to the West Allis RAC for sponsoring the party. We will be back – K0PC

A bit rusty after a long time off the air. Was nice to hear everyone again. TNX for a great contest – KF0Q

Sorry I missed so much of it, but I volunteer for the Colorado State Parks to get a local park de-winterized. All contacts on 40 meters – W0RO

Had a lot of fun in the contest – N0RPJ

Thanks for the QSOs – NR0T

Thanks for ordering the 65 degree weather this time. It makes running mobile a lot easier. Thanks for a great event. See you next year – W0ZQ
